ABOUT *THE WOOD COURT*

INDEX 

THE
WOOD
COURT

WHO WE ARE?

The Wood Court provides stylish, warm and natural feels all combined together in the perfect design execution. We launched our business in 1979 as a small workshop working to a total area of less than 300 square meters, in Sayeda Zainab district in Old Cairo, as the first specialized wood flooring company in Egypt. Within a few years, the founder Mr Adel Zahran succeeded in positioning The Wood Court as the market leader in the wood flooring industry. Over the years, by means of hard work and relentless innovation, The Wood Court has become the main supplier for countless projects all over Egypt

In 2015 we installed our production line for pergola unit with new modern designs, colours, and finishing. Now in 2020, we are operating from a 6200-square meter factory in Abo Rawash, one of the biggest industrial zones in Egypt, a 400-square meter showroom in Dokki. With over 100 technicians and engineers on board, we are utilizing the latest technology in wood flooring manufacturing, finishing and installation with a dedicated after-sales team.

OUR HISTORY

1979

Started our business with very low budget equipment in a 300 meters workshop.

1992

Expanding our working area approximately to the double.

2002

Replacing our machines and equipment with fully automated production lines.

1984

Purchased new types of equipment from SCM Group, for better quality in our new extensions.

2000

Moving our factory to a bigger one in Abo Rawash industrial zone, Giza.

2009

Expanding our working area in Abo Rawash to approximately 6000+ square meters.

2015

Setting up a new production line for pergolas.

2006

Purchasing a new production line to produce geometric wooden tiles.

2014

Purchasing our brand new ultraviolet curing finishing line from Giardina, Italy to produce pre-finished engineered floors.

2025

Expanding in a new 2025 factory in New October City.

We are heavily investing our time and resources to produce the highest quality products using diamond tool equipment, laser-cutting machines, and ultraviolet finishing lines. This enables us to transform a raw piece of wood into an artistic masterpiece.

WHY THE WOOD COURT

creates rich & luxurious floors, pergolas, and more. We use a combination of innovative designs, professional manufacturing teams, and the highest quality natural hardwood and engineered wood to make your life more comfortable.

Market Leaders

40 years ago, till now we are thankfully enjoying a very good reputation, which made us the market leaders

Trained Human Resources

Over the years we built great teams for sales, customer care, production & installation

Life Lasting Products

Our stains are all high quality and of life-lasting even with heavy use

40 Years Experience

Over more than 40 years of hard work, we had a great experience in designing, manufacturing & installation of various projects

Delivery In Time

We pay back 1% for every week after delivery time in case of not delivering in time

Customer Support

Whatever you purchase from The Wood Court our wide customer care team will always be here to support and solve problems

Custom Designs

We do any custom designs, in addition to our wide variety of pre-made designs

Environment Friendly

All our products are environment friendly; we don't use any harmful materials

Market Leaders

High quality, reasonable prices are very hard to find anywhere else, contact us and book a visit to see how we can fit perfect work within your budget

WHERE?

looking for a company to purchase your wood floors, wooden stairs or pergolas? the wood court is servicing and supplying a vastly growing number of projects for business and private residences in egypt since 1979. we provide quality work and help you achieve the most effective improvement you can make for your home or business at reasonable and affordable prices.

SKIRTING & ACCESSORIES

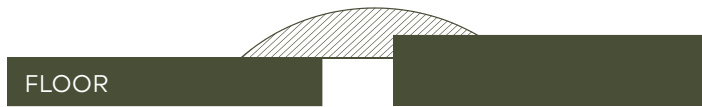

P1 P2 P3 P4 P5 P6 P7 P8 P9 P10 P11 P12

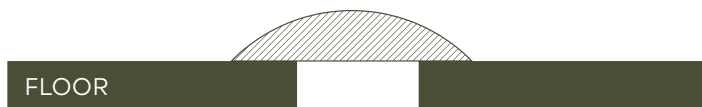

1- RAMP

The T-Mold trim is used to cover floating floor of same or similar height at doorways or over large expanses of flooring. It acts as an expansion trim.

2-T MOLD COVER

The Ramp trim is used to ramp from the top edge of the floating floor down to the subfloor.

3-Quarter round

Quarter round often serves the same purpose that shoe molding does – to cover gaps between the floor and trim of your home.

MANUFACTURING

Crafted with precision and care, wood flooring uses state-of-the-art technology for flawless cutting, sanding, and finishing. Guaranteed high-quality, durable, and beautiful meeting the highest standards.

REVIEWS

Nice and Friendly people high recommend for dealing with them

منتج جميل و فاخر و شركه محترمه بدايه المواعيد و التركيب الى المتابعه و الصيانه و شكر خاص للمهندس احمد زهران و المهندس ايمن زهران ,, لذوقهم و رقيهم في التعامل

High Quality, Friendly people and reasonable price. Totally recommend it.

excellent execution for the staircase, was amazed by their fast performance and work ethics. personally recommend them to everyone.

التعامل محترم جدًا وخدمة ما بعد البيع ممتازة. استلمت شغلي قبل معاده بـ 15 يوم. التعامل مباشرة مع م. أيمن زهران صاحب الشركة، وسلمت الشغل في الفيلا بنفسه.

New designs with very high quality... really proud that this works are made in Egypt... by the way the installation stuff is perfect.

We would like to thank Wood Court for their professionalism, accountability and high quality outcome.

the best wooden floors ever .
الجوده في الخامه . الجوده في المواعيد . الجوده في التعامل . الأدب و الالتزام من فنيين التركيب
